° *Normalized to exclude non-user base*

Sample population of 2164 Java professionals, sample error 2.1%

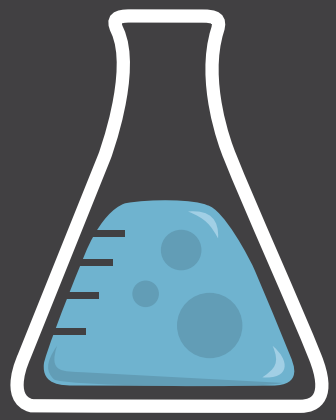
WHAT TECHNOLOGIES ARE DEVELOPERS REALLY INTERESTED IN?

Gradle - Almost 6 in 10 developers say they want to learn more about this build tool.

IntelliJ IDEA - Almost half of developers would rather use IntelliJ than any other IDE.

Scala - 47% of developers would choose Scala as their next JVM language.

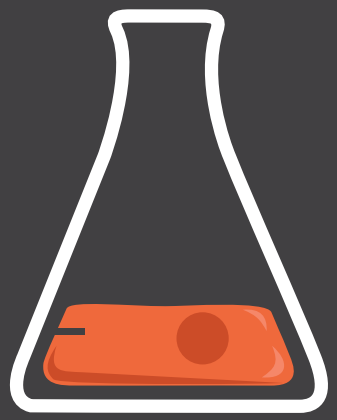
Java 8 - Over 1/3 of developers see getting familiar with Java 8 as their highest priority until 2015.



58%
Gradle

49%
IntelliJ IDEA

47%
Scala



35%
Java 8

THANKS FOR READING!

NO DEVELOPERS WERE HARMED IN THE MAKING OF THIS REPORT :)

We would like to thank the subject matter experts (SMEs) quoted in this report, the authors, editors & reviewers from ZeroTurnaround, our sponsor that made it possible to create this report, and finally our readers and the 2164 engineers+ out there that spent 5 minutes to help sick kids in hospitals have a bit of imaginative gameplay. We hope our next survey gets even more participants and goes to another worthy cause! Stay tuned for more from RebelLabs, and tell us what you think on Twitter @RebelLabs.
